

# CONNEX

The Connex team works to bring the Department of the Navy (DON) workforce together by sharing lessons learned, tools, resources and organizational barriers. Connex provides access to experts from across the DoD to every level of the workforce through videos, Ask Me Anythings (AMAs), podcasts and personal connections.

The Connex team also uses these platforms to boost other events and engagements for the workforce. They have developed an AMA playbook to assist numerous commands with ask me anything facilitation.
